

## Cost Effective Broadband

The Task Force is working diligently to identify sources for cost effective broadband for existing and potential businesses that are looking to locate in Moorpark. The general public has limited knowledge and typically do not identify the wide array of options that may match their needs in a cost effective way. We have identified Bandwidth access and delivery possibilities for your business. We have available experts, at no cost, to assist you in identifying alternatives for your business to bring you faster and lower cost broadband to your business in Moorpark. This is a free service. One of our consultants will contact you to discuss your needs and provide you a plan to follow through for options and pricing that will be available to you at your location in Moorpark. We have done much of the homework for you to price out. This is available for existing and new businesses. Please take advantage today. [Click here to send an email to our consultant.](#)
